DETAILED ACTION

EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Paul Kattele (Reg. No. 36,563) on January 08, 2004.

The application has been amended as follows:

Cancel claims 16-20 without prejudice because these claims being withdrawn as non-elected subject matter in the previous office action.

Claims 1, line 10, change "track (2, 8) and the power" to –track (2, 8), and the power—for proper grammar.

2. Claims 1-7, 9-11, and 13 are directed to an allowable product. Claims 8, 12, and 14-15 previously withdrawn from consideration as a result of a restriction requirement, claims 8, 12, and 14-15 are now subject to being rejoined. Claims 1-15 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in Paper No. 11 is hereby withdrawn.

Allowable Subject Matter

3. Claims 1-15 are allowed.

The following is an examiner's statement of reasons for allowance: the references cited in this and the previous office action disclose a multi-chip-module having a base, signal tracks, a semiconductor component, and some other claim elements. However, they do not disclose or render obvious in combination of the multi-chip-module having at least one power electronic component operated in the power range and connected with at least one power conductor track, at least one power contact surface, and at least one signal conductor track, and the power conductor track has a larger cross section than the signal conductor track at least on the basis of greater thickness dimensions.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Majumda et al. and Noda et al. disclose related art.
